

Introduction

To empower and support adults with disabilities to live a life of purpose, inclusion, and dignity

To supply natural and high-quality bath and body products while removing barriers to employment and community access for people with disabilities

What is Social Enterprise?

- There are 4 models of social entrepreneurship:
 - The One for One Model
 - The Awareness and Cause Model
 - The Environmental Model
 - The Hiring Model

The One for One Model

Where for every product you sell, you give
one away

The awareness and cause model

Where products or services are sold as a way of raising awareness or getting people involved in a cause and the profits generated go back to that cause

The Environmental Model

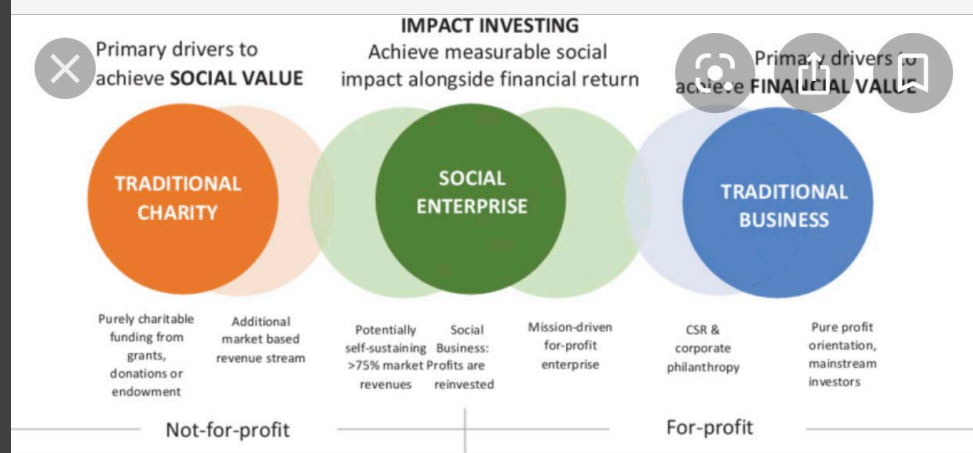

Where the company makes a significant positive impact on the environment

The Hiring Model

- Where you employ someone who might not otherwise be able to access employment. The idea of "giving work"
